Healthcare

French Healthcare

French Healthcare is an innovative initiative aimed at uniting industrialists, researchers, French health professionals to promote them abroad!

We want to impulse a collective dynamic to promote the diffusion of French know-how and technologies

A brand to promote French assets

Our assets:

- A well-known public health model and an excellent professional training,
- A key player in global health,
- A cutting-edge research and a world-leading pharmaceutical industry,
- An innovative powerhouse in the medical device, animal health, e-health, silver economy sectors thanks to a dynamic environment for start-ups and SMEs.

We want to promote abroad these exceptional skills through France Healthcare!

A public-private initiative for all actors in the health sector

French Healthcare was created under the aegis of the Secretary of State for Foreign Trade, Matthias Fekl, by bringing together public and private players in order to strengthen the French health export offer:

- The Ministry of International Affairs and International Development, the Ministry of Economy and Finance and the Ministry of Health.
- Key public actors operating in the health, development and trade sectors.
- Professional federations in the pharmaceutical, medical device or clinic sectors.
- Companies, hospitals, research institutes, clusters and universities.

Objectives

- Promotion of the French healthcare model through publications or scientific or trade events;
- In-house development of integrated infrastructure projects, health networks, capacity-building, prevention and care;
- Organization of fields trips and official delegations hosting.
